RESUME

VINCE JALIEL BALAMAN

Cagayan de Oro City, Philippines

PROFESSIONAL SUMMARY

Driven Information Technology student at the University of Science and Technology of Southern Philippines (USTP) with a focus on Cybersecurity, Data Management, and Software Engineering. Experienced in building full-stack applications and designing complex database architectures. Technically proficient in networking (CCNA) and modern software stacks, with a proven track record of collaborating on AI-integrated accessibility projects.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++, JavaScript, PHP, SQL.
- **Web Development & Frameworks:** Node.js, Laravel, HTML5, CSS3, Express.js.
- **Database Management:** PostgreSQL (3NF Normalization, Indexing), MySQL, Relational Algebra.
- **Networking:** Cisco Certified Network Associate (CCNA) – Intermediate Proficiency, Network Configuration, Security Protocols.
- **Tools & Platforms:** Git/GitHub, Linux System Administration (Debian-based), Figma (UI/UX), Amazon Nova AI.

TECHNICAL PROJECTS

NovaGazeAI | AI Integration Collaborator

- Developed project logic for an accessibility application integrating **Amazon Nova AI** with eye-tracking technology.
- Implemented **MediaPipe** for visual tracking and calculated EAR (Eye Aspect Ratio) for blink detection to assist users with limited mobility.
- Collaborated on the integration of AI-driven responses to improve user interface convenience.

Well Meadows Hospital Registry | Lead Developer

- Engineered a full-stack hospital record management system using **Node.js** and **PostgreSQL**.
- Designed a decoupled directory structure to ensure professional-grade scalability and maintainability.
- Implemented full CRUD functionality (Create, Read, Update, Delete) for managing patient, staff, and medical records.

NutriCloud | Project Lead

- Developed a patient dietary tracking system for healthcare providers using the **Laravel** framework.
- Created high-fidelity UI mockups in **Figma** and architected the backend database to handle sensitive medical data.

EDUCATION

Bachelor of Science in Information Technology *University of Science and Technology of Southern Philippines (USTP) | Expected 202X*

- Relevant Coursework: Technopreneurship, Advanced Database Management, Network Security.

Senior High School – STEM Strand *Xavier University – Ateneo de Cagayan | Graduated 20XX*

Junior High School & Grade School *Xavier University (Ateneo de Cagayan)*

CERTIFICATIONS & AFFILIATIONS

- **Cisco Certified Network Associate (CCNA)** – Coursework/Training
- **Technopreneurship Program Participant** – USTP
